Private Yearly Fee For Service Health Plans For 50% Less.

### You Can Stop The Hurting. Seven (7) Questions To Ask Yourself About Your Healthcare Plans.

1. Do You Know Someone Who Is Financially Hurt By The High Cost Of Health Insurance?
2. Who will help you if you have a claims issue or need a new prescription drug?
3. Are your major medical needs properly covered?
4. What will happen to your healthcare plan when you retire or leave your company?
5. Does your health plan have a network?
6. Will your business or employer pay your Medicare premium and out of pocket cost?
7. Will your Part D card have a "Donut Hole"?

When you or someone you care about is facing serious injury or illness, it's not the time to face the healthcare system alone. Additionally you can help prepare to offset the monthly and annual out of pocket cost for Medicare. Vested Health Assurance offers patient advocacy options for individuals and businesses.
